LOCAL NEWS.

Mr and Mrs R Larson and Mr and Mrs F Kimmerley are making a motor trip, this week, to Banff.

Mr Arthur Ingle, from Portland, Oregon, is visiting here with his brother Leonard Ingle.

Rev R Shippanowski left Friday last, to accept the call to a pulpit in Minnesota.

Mr and Mrs Jack Shearer took a motor trip to Fallis on Sunday.

Mr and Mrs E A Penar of Leduc were visitors on Sunday with Mr and Mrs M Comisgrov.

The Federal grain elevator is closed this week, while the manager, Mr H Miller, is on his vacation.

There will be a showing of lantern slides on Friday evening Aug 6, at St Matthew's schoolhouse in Stony.

Stony Plain Boy Scouts, under Capt. Hy. Trapp, are camping this week at the Beach.

A local butcher brought in a car lot of store cattle from the City on Thursday, the claim being made the price for these is lower in Edmonton stockyards than the stock-raisers in this district are asking.

A detachment of the Salvation Army held a street service in Stony Saturday evening. Two charming unaccompanied vocal duets were given, in addition to the usual selections.

The International Bible Students will hold a meeting in Stony Plain Sunday afternoon next, the speaker being Mr L A Williams. At the same time a meeting will be held at the schoolhouse at Hansen's Corners.

The congregation of St Matthew's Lutheran Church held a meeting Sunday afternoon in St Matthew's schoolhouse.

The Executive of Walther League held a meeting at its club-rooms the afternoon of the 25th.

The directors of Stony Plain Agricultural Society held their annual meeting Saturday last. The report of the finance committee showed that the outstanding indebtedness at the present time amounts to only \$30.

The membership committee reported the same number on the roll as last year. There was some discussion on the advisability of holding a Fair, but this was negated. It was decided to put the Society's acreage in wheat next year.

Mr Wm Robertson's resignation as secretary was accepted. The town clerk is in receipt of a letter from the Attorney General's Dept. to the effect that those who pay a business tax only, and who do not pay any school taxes within the province, are liable for a special educational tax if levied by the Council for school purposes.

NOTICE !

**INGA MUNICIPAL DISTRICT
NO. 520.**

PUBLIC NOTICE is hereby given that there has been introduced in the Council of Inga Municipal District No. 520 a Bylaw of which the following is a short synopsis—

BY-LAW NO. 1—A Bylaw of the Municipal District of Inga No. 520, for Restraining Animals from Running at Large.

Under the authority and subject to the provisions of the Domestic Animals Act (Municipalities), the Council of the Municipal District of Inga No. 520 enacts as follows:

All Domestic Animals are hereby prohibited from running at large within the following described portions of the said Municipal District of Inga No. 520, from the First Day of May to the Thirtieth Day of October in each and every year:

All of Township Fifty-one (51), Range One (1), and Fifty-two (52) Range One (1), west of the Fifth Meridian Sections Twenty-five (25) to Thirty-six (36) inclusive, in Township Fifty-one (51), Range Two (2), and in Sections One (1) to Eighteen (18) inclusive in Township Fifty-two (52), Range Two (2) All west of the Fifth Meridian.

And that a copy of the same may

be seen in each of the following places—

Office of Secretary-Treasurer, Duffell.

RED ROSE TEA

"is good tea" TEA

Red Rose Orange Pekoe is extra good. Won't you try it this time?

Have a Hobby

Among the many excellent features of that splendid organization, the Boy Scouts, is the encouragement and development of hobbies. It was recognized by the founder of the Boy Scouts that boys of a certain age invariably group together for their activities, whether in play or work; that the "gang" spirit prevails. And almost without exception these boys individually have some hobby which to them is of absorbing interest and arouses their enthusiasm, although to others it may appear quite unimportant, even futile.

It is part of the Boy Scout programme to encourage boys to adopt some hobby that is really worthwhile, one that appeals to them, and to then help them to develop a hobby to a point where it will prove of real value to them and to their fellow men. Thus the Boy Scouts offer badges for efficiency on the part of its members for an almost inconceivable number of things.

Life is full of instances of men and women who have developed their hobbies to a point where they became the real passion and business of their lives, resulting in important discoveries and inventions and bringing untold blessings to the world, as well as fame and often fortune to the hobbyist.

George Eastman, the Kodak inventor and manufacturer, was a bank clerk and, preparing for a holiday trip, he decided to take pictures of places visited to send home to his widowed mother. In those days, half a century ago, amateur photographers were few in number because the paraphernalia required was bulky and crude and the work of picture taking developing and printing difficult. Eastman thought it could be simplified and in his spare time in his mother's kitchen made photography his hobby. The result was well known.

Littler, Durbanke's hobby was horticulture, and he amazed the world with his achievements in the development of new plants and flowers and in demonstrating how they could be improved in size and beauty. Jack Miner, Timsonson-Seton, and others have made the life and habits of birds their hobby, with the result that mankind has learned how much we owe to the feathered folk, and how, without their help, destructive grubs, worms and insects would soon lay havoc with gardens, orchards and our food supplies. Another man, Johnson, by name, within the past twelve years has, as a hobby, grown all kinds of tropical and sub-tropical trees and plants with the result that he has proven that many things which the United States now imports from foreign lands to the extent of hundreds of millions of dollars can be raised at home.

Many a boy has a mechanical turn of mind which soon finds expression in some form of hobby and which, if rightly directed, encouraged and developed, may point to the occupation in which he may find the greatest enjoyment and success in life.

But apart from hobbies of this character, it is well that the business and professional man and woman should have a hobby. It should be something distinctly different from that of their everyday occupation. Thus the professional and office man will find health, recreation and downright pleasure in devoting his spare time to the development of some hobby that takes him out doors and calls for the use of his hands rather than the concentration of his mental faculties.

There is, fortunately, a growing realization of the value of hobbies, although they are not always classified as such. Service clubs in all cities are more and more turning their activities in the direction of hobby, humanitarian service. Thus we find these Club members making a real hobby out of providing outings for orphaned, under-nourished and crippled children, and finding as much pleasure in doing so as they provide for these little unfortunates.

Hobbies there are such as the collecting of stamps, coins, antiques, china, pictures and other articles too numerous to mention. These all have their value in freeing the mind from too close and constant application to business affairs and worries, even though they may not result in adding anything very worthwhile to the lives of others and the advancement of the world.

The main thing is to have a hobby. Parents should encourage their children in this direction and carefully refrain from ridiculing what may seem either silly and purposeless to them. Sympathetic study of a child's hobbies may give a valuable indication of the direction which such of his trainings should be given.

Germany's Emergence

Forcefully disarmed amongst neighbors big and small still armed to the teeth, the German race is becoming potentially stronger than ever. How can they be kept for many years more under any kind of foreign dictatorship or tutelage? How can they be denied their demand for civilized equality in every respect? It cannot be done.—J. L. Garvin in London Observer.

Will Develop Oil Lands

The Hudson's Bay Company has issued a statement announcing that an arrangement had been reached for the exploration and development of the company's oil rights in Canada. The arrangement is with E. W. Marland, and a company will be organized to be known as the Hudson's Bay-Marland Oil Company. Arrangements for a complete geological survey of the land in question already are under way.

Radio In Canada

Six Plants in Canada Engaged in the Manufacture of Radio Equipment. Production in Canada of radio apparatus including sets, parts and batteries reached a total value of \$5,548,859 in 1925, according to a recent statement issued by the Canadian Government, bureau of statistics at Ottawa. Six plants in Canada were engaged solely in the manufacture of radio sets or parts, nine other concerns made sets and parts in conjunction with the manufacture of other electrical apparatus and 15 of the manufacturers of batteries in Canada reported an output for radio purposes.

Statistics for 1925 show a substantial growth in the radio industry during that year and also reveal a tendency toward the production of complete sets rather than the manufacture of separate parts. In 1925 the number of complete sets manufactured by these companies was 49,498 and the selling value (f.o.b. works) was given as \$2,196,024. Production of vacuum tubes amounted in value to \$1,299,684 and was double that of the previous year.

Radio licenses were issued by the department of marine and fisheries during the twelve months ending March, 1926, to 334,486 persons. Ontario led all provinces with a total of 60,110; Quebec was next with 21,141. Registrations in the other areas were as follows: Saskatchewan, 15,944; Manitoba, 14,502; British Columbia, 4,941; Alberta, 7,152; Nova Scotia, 3,588; New Brunswick, 2,612; Prince Edward Island, 202; Yukon, 25; and the Northwest Territories, 17. Licensed broadcasting stations, not including amateurs, numbered 55, distributed as follows: Ontario, 24; British Columbia, 10; Saskatchewan, 7; Alberta, 6; Quebec, 4; Manitoba, 2; New Brunswick and Prince Edward Island, 1 each.

SOME SYMPTOMS

OF THIN BLOOD

Everybody Should be Able to Recognize Them Because Early Treatment is Important

Anæmia, or lack of blood, is a stealthy disease and is often quite advanced before it is recognized. It is much easier to correct in its early stages, but if unchecked causes weakness, loss of weight, lack of vigor and ambition.

Some symptoms of anæmia are loss of appetite, indigestion, headaches, sleeplessness, shortness of breath after slight exertion, and often extreme nervousness. If you have any or all of these symptoms, you should start now with Dr. Williams' Pink Pills, the tonic which will make the blood rich and plentiful. Every part of the body will respond to this treatment as is shown by the case of Mrs. Isaac Hall, of North Anson, Ont., who says: "A few years ago I was a very sickly woman. I was all run down and my nerves badly shattered. I had taken doctor's medicine, but as I got no help from it, I tried other remedies, but with no better results. One day while reading a newspaper, I came across an advertisement of Dr. Williams' Pink Pills. Describing it as very much like my own, I decided to try them, and by the time I had taken two boxes I could feel the benefit. I was getting from them, so I cheerfully continued the treatment and was soon a well woman in better health than I had enjoyed for some years. In view of what Dr. Williams' Pink Pills have done for me I cheerfully recommend their use to all weak, run-down people."

Dr. Williams' Pink Pills are sold by all druggists or may be had by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont. A free booklet, "Building Up the Blood," will be sent to any address on request.

Canada Protects Railways

The custom of American manufacturers of automobiles to drive new cars across the Canadian border has aroused the Canadian government at Ottawa. The officials of which maintain that this is a discrimination against the railways that should be stopped. They say it is not only unfair to the railways, but if allowed to continue would cause congestion in the highways at times.

Cornus cause much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

The visitors' register of the Los Angeles Chamber of Commerce is a book weighing 340 pounds and containing 4,600 pages.

Minard's Liniment for Rheumatism

W. N. U. 1539

The fly family learns the shortest distance between two points

GERMS—6,000,000 germs on a single fly, says a noted health officer. Protect your family with FLIT. FLIT spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

FLIT spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray FLIT on your garments. FLIT kills moths and their larvae which eat holes. Extensive tests showed that FLIT spray did not stain the most delicate fabrics.

FLIT is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. FLIT has replaced the old methods because it kills off the insects—and does it quickly. Get a FLIT can and spray today.

Will Be Presented With Medal

Scottish Scientist To Be Honored By American Chemical Society

Sir James Irvine, principal of the University of St. Andrew's, Scotland, since 1921, and a member of the advisory council, department of scientific and industrial research, has arrived in Canada. The object of his visit to this continent is to receive the Willard-Gibbs gold medal from the American Chemical Society. The late scientist of note to whom this medal was awarded was Madame Curie. Although Sir James was of estimable value to the British Government during the war on account of his studies and discoveries of antidotes for poison gas, the American Chemical Society is presenting him with its high token in recognition of his valuable researches on sugar, principally dealing with starch and cellulose. The presentation is to take place in Chicago, September 17.

Minard's Liniment for Burns

Question of Naturalization

This Matter is to Come Before the Imperial Conference

The fact that Canada was the only Dominion that had failed to reply to a circular from the Dominions office relating to the naturalization of children of British subjects born abroad during the war, was mentioned in the British House of Lords by Lord Desborough.

Replying to a question he stated that nationality having become a subject of imperial importance, it would be placed on the agenda of the Imperial conference.

Director of Fox Breeders

Matthew Snow, of Winnipeg, was elected secretary director of the Canadian Fox Breeders' Association in convention at Summerside, P.E.I. P. J. Clark, of Summerside, was elected president.

Relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incident and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Poor Boys' Road to Fame

Is the country reaching a state in which it will be necessary to put it that any poor boy can aspire to high office provided he can first become a rich man?—Boston Transcript.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

When a bachelor does find his ideal woman it may be only to discover that she is looking elsewhere for her ideal man.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

A man never really knows the value of a dollar bill until he is followed by a persistent collector.

Now Is The Time For Canada To Put Forth Every Effort To Secure Immigrants

When Canada launched a vigorous "open door" immigration policy at the beginning of the present century, we made our first and only great stride in settling the west. We succeeded chiefly because we attacked our problem intelligently and at the "right time." European countries, suffering with population, were growing under dire economic pressure, and our "free farm" propaganda carried a special appeal to the landless masses there.

It took the world, the better part of half a million years to peck a population of 750 millions up to the year 1800. Food had normally been scarce and this near-starvation condition had acted as a powerful brake on natural increase according to well-known economic laws. Then came the golden age of invention, followed by rapid and cheap transportation on sea and land, which in turn led to the opening up of vast continents of virgin lands, constituting huge food reservoirs in temperate zones overseas.

This, coupled with the increased mechanization of agriculture, relieved the pressure and automatically led to the most spectacular increase in world population that history records. With in one brief century, during the latter part of which the world wallowed in cheap food, population doubled, reaching 1,500 million in 1900. With European population at the very peak, Canada gathered her human harvest comparatively easily. But the day of easy colonization accomplishments is now over.

A new era has dawned. There are no more virgin worlds to conquer in temperate zones. The day of cheap food is definitely past, and presently the earth will only be made to yield more abundantly through the expensive and laborious process of intensive cultivation. Prof. East, of Harvard, after painstaking investigation, tells us that if the same fantastic birth rate should by any chance continue, the world would be on the verge of actual starvation by 1960!

But economic laws are at work and we need not entertain any apprehensions. Vital statistics demonstrate clearly that the general birth rate is falling rapidly everywhere. Great Britain now has the lowest birth rate of any nation, even lower than that of France. Economists now predict a stationary, or possibly receding, world population. Beyond all shadow of doubt, in fifteen or twenty years, Canada will look overseas in vain for surplus man power to develop her resources. And the birth rate of our own native stock is falling continuously. We need census statistics to convince us of that fact.

So Canada is essentially working against time in her present leisurely colonization effort. With the passing of each year the problem will be increasingly intensified. For a few years yet the world may remain partly overpopulated with adults, but our chances to secure more people are dwindling steadily day by day. It requires no prophetic foresight to conclude that Canada's opportunity is "now or never."

And yet there is not the smallest indication that our statesmen can be shaken out of the present sluggish attitude on this subject and that this age-old and urgent national problem will be solved within nature's time limit. The "stagnant, routine methods of the past are out-of-sighted policies."—C. W. Peterson in Manitoba Free Press.

A Death in Europe

German monarchy is dead. The fears expressed when Hindenburg was elected were without basis. When nearly 16,000,000 German voters approve the seizure of royal property, the divine right of kings is a hollowed doctrine. When those who oppose such seizure do not dare vote, but beat it by abstention, there is little danger that the call for new kings and emperors to rule Germany will be loud enough to be heeded.—New York World.

Cleanliness is next to godliness, but just let a Chinese laundry try to locate next to a church.

W. N. U. 1929

Insurance Against Single Crop Failure

Aaron Sapro Says Hope Lies in Building Up Crops of Constant Production

In "eggs and bacon" lie Saskatchewan's prosperity for the future, Aaron Sapro, "father of co-operation," told the "Canadian Club in Regina." Mr. Sapro compared the United States and Canada, much to the advantage of Canada, in respect to successful farming.

He told of the tragedy caused in the United States by the dependence on certain sections on single crops of annual productivity and urged Saskatchewan business men to tell the farmer that the only adequate insurance against the failure of a single crop was by the building up of crops of constant production. In eggs and bacon, he said, were the greatest opportunities for Saskatchewan in the future, while the production and export of butter and other dairy products to the great London market could be increased by at least ten times, he declared.

Mr. Sapro said he was doing no boasting about the United States.

"I am going to eat a humble pie," he continued. "If only the United States have done anything so well and so importantly well, as this wheat pool you have built up here. It is undoubtedly the greatest single accomplishment in the history of co-operative marketing and I stand and view it awed. Since my return to the United States three years ago I have received letters from every country in the world where wheat is grown, all asking for details of the Canadian pool, and the manner in which it operates."

"It is a beacon of hope for the wheat grower the world over."

Last Year's Grain Disappearing

Heavy Shipments Being Made to Prepare for New Crop

Last year's grain is fast disappearing from western elevators and storehouses.

The Canadian Pacific reports that for the period from July 14 to inclusive, this year, 451,344 bushels were marketed from the Manitoba district as against 491,633 for last year. Saskatchewan, 380,250 this year, against 374,865 for last year; Alberta district, 194,289, as against 255,817 last year. A total of 915,725 bushels against 1,118,865 last year, or an average of 152,821 per day, against 187,478 bushels.

Cars loaded in the Manitoba district this year are 284, compared with 417 last; Saskatchewan, 287 to 351 last year; Alberta, 164 cars against 217 for same period last year, with a total loading of 815 cars against 1,045 cars in 1925. The average per day is 126 against 174 last year. All of which shows that when the crop is garnered, the Canadian Pacific will be in readiness to handle it with speed.

Bruised Meat Exhibit

Losses on Livestock Due to Bruising Shown at Western Exhibitions

Something unique in the way of educational work was shown this year at the Calgary exhibition and stampede, and the Edmonton exhibition by the provincial department of agriculture.

This is a special automatic exhibit depicting losses on livestock due to bruising incidental to loading and shipping, and the provincial department is putting on the exhibit, in co-operation with the university, with packers, producers and others interested, in an effort to minimize the losses thus created, the extent of which is probably not realized by a large proportion of those handling livestock.

Princess Becomes Householder

The latest house-warming in which the King and Queen participated was the occasion of Princess Victoria taking up her abode at "Copplins" Iver, Buckinghamshire, when the Princess became her own householder for the first time. The house which the Princess, who is the King's sister, has taken is quite small and has nothing about it to suggest royal ownership.

Cost Of Rearing Chick

Interesting Experiment Yields Valuable Information For The Poultry Farmer

An especially interesting experiment to ascertain the value and cost of growth in rearing chicks is chronicled in the annual report of Mr. J. A. Ste. Marie, superintendent of the Dominion experimental station at Ste. Anne de la Peste, Quebec. Three hundred and forty chicks were hatched and at the end of the experiment, which lasted 26 weeks, that is from April 5 to September 28, all the chicks were still alive. The feed consumed consisted of a home-sold grain ration, dry mash, fatted oats, eggs, skim milk, charcoal, grit, earth shells and greens (sprouted oats), kept constantly before the birds. Unfertilized eggs taken from the incubator were boiled and served during a week at the rate of one egg per pound of mash, which was composed of equal parts of cornmeal, shorts, alfalfa meal and meat meal. The mixed grains fed in the latter consisted of equal parts by weight of wheat, cracked corn and oats. When hatched the chicks weighed an average of 3.5 ounces each, at the end of the 26th week 2.88 pounds each. The total cost of feed, as statistically detailed in the report, was \$106.58 and the cost per pound gain 11.4 cents. The total weight when hatched was 42.5 lbs. and at the end of the experiment 1,320 lbs.

Combines and the Consumer

Ultimate Consumer Should Receive the Benefit of Large Scale Operations

The best way for combines to disarm prejudice is to give the consumer the benefit of promised economies from large scale operations. They have been granted much leniency, though often there is distrust of their financial setup and doubt whether what savings are realized by them find their way to the consumer's pocket. In other words, they are being allowed to get into their hands power which may be readily abused and should watch their step.—Baltimore Sun.

Scientist Casts Doubt On The Report Of Ancient Inscriptions Found In Pacific Coast Region

The Toll Of Forest Fires

Annual Loss To Canada Runs Into Millions of Dollars

Forest fires are again taking a heavy toll of Canada's forest wealth in Western Alberta, British Columbia and in New Brunswick. Every year the country loses this year and this loss, the "killing" of the nation's timber, runs into millions of dollars annually. A fire can destroy in a few minutes trees that take half a century to come to maturity. When they are gone they cannot be replaced for another half century and their destruction is a loss not only to the individual who may own the timber land, but to the whole nation, for part of the national wealth and the national heritage has been removed.

Various organizations, notably the Canadian Forestry Association, are at work in the country preaching the gospel of "Save the Forest." They are doing valuable work in arousing public appreciation of the value of the public domain. Much work remains to be done, especially in the development of effective fire prevention and fire-fighting. The cost of such work is not an important factor provided something can be done to stop the devastation from fire. The country can afford to spend thousands of dollars on effective fire prevention and fire control, but it cannot afford to lose millions in fire losses.—Free Press.

Students Get Toronto Fellowship

Graduates of five Canadian universities have been awarded seven special fellowships for graduate work in courses offered by the University of Toronto for the degrees of M.A. and Ph.D., it is announced. Among those who received awards were: A. E. Birney, University of British Columbia; C. A. King, University of Saskatchewan; Miss A. A. Berkeley, of British Columbia.

The report that rune inscriptions relating the story of a terrific battle between Vikings of Norway and Indians in the year 1010 A.D. have been found almost within the fifty limits of Spokane, on the Pacific coast, seems quite incredible to Professor C. T. Curry, curator of the archaeological section of the Royal Ontario Museum.

"That a party of Norsemen in the eleventh century before Columbus discovered America, crossed the continent of North America, especially taking women with them, seems altogether improbable to me," said Prof. Curry.

"Of course nothing is impossible," added Prof. Curry, "but it is one of those things that one would want overwhelming proof to accept."

"I remember that Stefansson told me of the finding of a stone with Norse inscriptions on it some time ago which would go to prove that a band of Vikings entered the Hudson's Bay before the time of Columbus and made their way down through the west to the country which now forms some of the American states of the middle west," said Professor Curry.

"At first people were inclined to scoff at the whole incident. The rune inscriptions on this stone are owned by some farmer, I believe, told of so many days' journey from the sea. People naturally thought at once that these Norsemen must have been among the bands which are supposed to have landed along the Labrador and New England coasts and have made their way right across Canada or the United States to the west. The time of the inscriptions, of course didn't work out, but when the Hudson's Bay was connected with the story it was found that the 'so many days from the sea' mentioned on the stone inscription would do for a journey from the Hudson's Bay. Although it is so long ago that I don't recollect all the details, I believe that it is very likely genuine, and that Norsemen really did enter the Hudson's Bay."

"But that such a band even coming from the Hudson's Bay should get across the mountains to the Pacific coast seems very, very incredible to me."

Professor Curry stated that there are many people who are sufficiently proficient in rune lore to forge such an inscription as is purported to have been found at Spokane on volcanic rock by Prof. Olaf Oppein.

Prof. Curry told of another hoax which told the story of an ancient Egyptian voyage around the Cape of Good Hope. A professor well versed in hieroglyphs had inscribed the story on tablets as a joke, which was taken seriously for a time.

The present story of the Spokane inscription is said to relate the heroic wanderings of a band of 24 Norse Vikings for seven women, one of whom was carrying a small baby, travelling "from east to west" in 1010.

Exhausted and thirsty, they came to the spring beside the trail and camped. A party of Indians came along, found the Norsemen and immediately attacked.

The record is supposed to tell how the party put the woman and baby on top of the great volcanic boulder and then stood at the base and fought the Indians. Twelve of the Norsemen were killed, two were captured. Six of the women, also, were taken prisoners, while the woman, with the baby in her arms, was thrown from the boulder and killed.

Later on, six of the survivors returned to the spring and the scene of the battle. There they dug a grave near the rock and buried their dead. The stone, marking the burial mound, is said to be plainly visible yet, and digging operations may even be predicted.

U. S. To Increase Border Patrols

North Dakota is to have another contingent of border patrolmen placed on duty within a short time, according to information received from Washington. Twelve patrols have been taken to the various places on both the northern and southern boundaries of the country and to do this there will be 235 men added to the list. In North Dakota there will be four added, bringing the total up to fifteen. Montana is to get fifteen.

Famous Comic Artist Goes Fishing

Clara Briggs, comedian-known creator of "Mr. and Mrs.," recently remarked that fishing time was here and with six New York colleagues came north to the White Station, Montreal, for a little recreation in the Laurentians where the red and grey gamt trout besport themselves and incidentally furnish sport to the follower of Isaac Walton. He wandered as far north as the St. Donat Chalet on Lake Archembaud where he stayed for a couple of weeks with results that were very satisfying. Here you see him practicing in his New York fat prior to the trip. His fishing pole is a certain rod to which cotton and a bobbin for a float is attached and he is entirely concentrated on the job. We don't know what he is trying to catch, but if patience means anything he should succeed in catching it.

WORLD HAPPENINGS
BRIEFLY TOLD

Heavy rains in Western Japan have drowned thirty persons and destroyed about 4,500 houses.

The jewelry left by the late Queen Alexandra has been valued at more than \$6,000,000. It is under guard.

It is officially announced that the Duke of York, King George's second son, will visit Australia to open parliament in the new capital, Canberra.

It is reported that the Bill Smith drama on East Bay at Red Lake, have been taken over by the Guggenheim interests of New York. Assays are said to run very high in silver, gold, nickel, zinc and copper.

Hon. A. J. McLean, former minister of public works in Alberta, has been appointed manager of all the big ranch and farm holdings of the estate of the late George Lane in Alberta. This includes the famous Bar "U" ranch.

Joseph Samuel Barker, vice-president of the Maple Leaf Milling Company, who died in Toronto on June 6, left an estate valued at \$25,470, or which one-third consisted of real estate and the rest personally.

The gross earnings of the Canadian National Railways for the week ended July 14, 1926, were \$1,952,030 as compared with \$1,426,722 for the same period of 1925, an increase of \$525,308, or twelve per cent.

Confirmation has been obtained that the Wayagamack Pulp and Paper Company of Canada will take up an option on the Island of Anticosti in the Gulf of St. Lawrence, now owned by Seneca Meador, of France. The purchase price is said to be six million dollars.

The King has approved the appointment of Sir Ronald Lindsay as ambassador at Berlin. Sir Ronald has been ambassador at Constantinople since 1925. His post will be taken over by Sir Geo. Russell-Clerk, minister at Prague.

Viscount Willingdon, who is to succeed Baron Byng as Governor-General of Canada, has been appointed by His Majesty a knight of the grand cross of the order of St. Michael and St. George, the London Gazette announces.

More than 60,000 acres of splendid crops were laid waste when a tornado, accompanied by a hail and rainstorm, swept across the sparsely settled districts of Waldron, Gerald, Altwater and Spy Hill, Sask., killing one and injuring five persons.

Practically as much money has been invested in Alberta Government savings certificates to date this year as for the whole of 1925. The figures for last year, covering the entire twelve months, were \$2,145,515, and to the end of June this year, covering the first half only of 1926, \$2,100,706 had been accounted for.

Alberta Premier Coal Producer

Largest Tonnage of Coal in Canada Mined in Alberta

During 1925, Canada produced some 33,334,968 tons of coal, valued at \$49,261,951, according to a report issued by the Dominion bureau of statistics. Alberta held the premier position with an output of 5,869,031 tons, which was 679,392 tons above 1924 production. British Columbia showed a slight advance of 2,842,252 tons in 1925.

There were 25,035 people, including 1542 salaried employees, engaged in or about the mines during 1925, to whom \$3,200,009 was paid in salaries and wages.

When a man is sick he expects the rest of the family to stop everything and listen to his groans.

Stomach Upset?

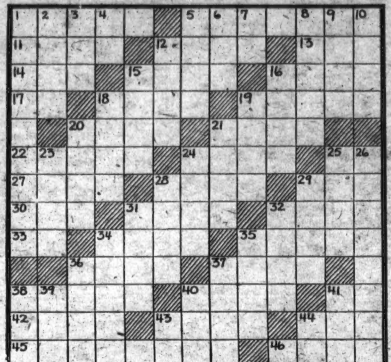

Food or water may cause severe abdominal pains, but you can relieve the agony at once with Chamberlain's Colic & Diarrhoea Remedy.

BAKER'S OVENS—Write for catalogue and list of used ovens. Hubbard Oven Company, 1160 Queen West, Toronto.

 - 30—Indian memorial post.
 - 31—Heavenly body.
 - 32—Stiff.
 - 33—Mixed type.
 - 34—Article.

SUNDAY SCHOOL LESSON

AUGUST 1

THE DELIVERANCE AT THE RED SEA

Golden Text: Jehovah is my strength and song, and he is become my salvation. Exodus 15:2.

Lesson: Exodus 12:17-22; 14:10-16.

Devotional Reading: Psalm 37:1-7.

Explanations and Comments

The March From Egypt to the Red Sea, Exodus 12:17 to 14:2.—The Israelites had assembled at Rameses in the eastern part of the Delta. From there the most direct route to Canaan would have been by the way of the land of the Philistines, northward along the Mediterranean coast. That way "was near," involving a journey of not more than two hundred miles at the farthest. But the people of Southwestern Canaan were great warriors, and God led them by a way rather than by the longer route, the way of the wilderness by the Red Sea. See the geographical background. "It was God who, for good reasons, led them by one way rather than by another—by a way which would keep the people from discouragement and defeat, and by which even the Egyptians would be compelled to acknowledge the superiority and glory of Israel's God, 14:4." (Dr. J. E. McFadyen).

The tortuous path of Israel was prescribed out of a tender regard for safety; and the same wise, loving-kindness determines the involutions, and circumvolutions of our pilgrim age. Indirection is not misdirection. The way is long, obscure, and apparently arbitrary; but the sufficient reason for all our perplexing wanderings is found in the weakness of our strength, and the exigencies of life's discipline. He who governs the races and the ages has a sufficient reason for every detail of our eccentricity." (Dr. W. L. Watkinson).

World's Non-Stop Flight Record

Aviators Travel 2,940 Miles in 29 Hours

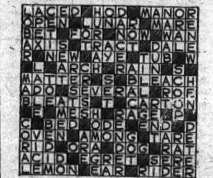

Captain Jurier and Lieut. Dorcil have established a new world's non-stop flight record, travelling 2,940 miles in 29 hours.

The aviators started from Paris and landed at Omsk, Siberia.

The former record was established in June when the Arrachart Brothers flew from Paris to the Persian Gulf. A message from the fliers says that they encountered storms all along the route and that their gasoline tanks were practically empty when they landed.

Some spider webs are so strong that birds can be caught in them.

Answer to Last Week's Puzzle

Road Signs

British Columbia Soon to Have Motor Roads Well Marked

Every important road in British Columbia will soon be marked for the convenience of travellers with official warning signs. These signs are under preparation and will be turned out in thousands shortly for installation all over the province.

The official signs will warn motorists of dangerous curves and grades. All points where cars must stop before entering a main highway under the new government highway regulations will be clearly marked in this way. Railway crossings where motor buses must come to a full stop before proceeding, also will be marked.

Earlier Delivery of Cable Letters

Cable letters to Great Britain, Ireland and Holland will hereafter be delivered on the morning following the date of filing or as soon thereafter as their transmission is completed up to one p.m. Greenwich. This information is contained in an announcement received by the Canadian National Telegraphs from the Anglo-American Telegraph Company, which also states that cable letters will no longer be held until the uniform hour of noon. On messages such as these the rates are \$1.10 for the initial 20 words to Great Britain and Ireland and \$1.60 to Holland, excess words costing six and eight cents respectively.

Asthma!

Spread Minard's on brown paper and apply to the throat. Also inhale. Quick relief assured.

LARGEST PEONY FIELD IN CANADA

View showing a field of 50,000 peonies in bloom at the Prairie Nurseries, Estevan. Reading from left to right: Dr. J. F. Creighton, M.L.A.; Mayor A. M. Tacey; Hon. T. C. Davis, Minister in charge of the Bureau of Labor and Industries for Saskatchewan; E. J. Campbell, President of the Estevan Board of Trade; and Commissioner Thos. M. Molloy.

Slavery in the Congo

Belgian Public Opinion Ready to Hear Plain Truths About Conditions

Enlightened Belgian opinion, with the King and Crown Prince taking the lead, appears ready to hear many plain truths regarding exploitation of the colored races when the international conference on the Christian mission in Africa assemblies at Le Zoute, Belgium, Sept. 14. Many Protestant missionaries will be in attendance and they can be counted on to deal faithfully with the various colonial administrations. In return, the British, French and Portuguese missionaries will be invited to hear equally searching evidence regarding their policies and those of their governments. The King of the Belgians says: "The Congo and its inhabitants have produced largely and brought much money to the home country. Let us never forget that colonialism must find its justification in the moral progress and material welfare of the native population. Is not this moral and material progress the necessary condition of the future output of colonial undertakings? We have a moral responsibility towards the native populations whose government we have assumed."

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the Sore Parts With

NERVILINE

"My testimony should convince any one that 'Nerviline' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKays Drug Store and they recommended Nerviline, which restored me completely." For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 25¢ bottle of Nerviline. Sold everywhere.

Development of Wireless

Passengers On Huge Air Liners in Germany May Talk With Telephone Subscribers

While rushing through air, passengers on the huge air liners of the German air service soon will be able to pick up a wireless telephone receiver and, despite the roar of three 120-horsepower motors, talk with any telephone subscriber in any large city in Germany. Wireless telephone experiments between pilots on two of the night air routes and landing fields have proved successful. A pilot circling over Stockholm, Sweden, in a thunderstorm, talked with Templehof Field, Berlin, for five minutes.

Disintegration of a Mountain

A mountain is crumbling to pieces near Cordova Alaska due to the pressure of a glacier at its base. An inspection of the mountain was made after reports had been received that a volcano was in eruption. A dust cloud arising from tons of rock sliding from the mountain peak had been mistaken for smoke. On the mountainside farthest from the glacier, masses of rock of from 500 to 2,000 tons intermittently crash down to a valley below with a deafening roar.

Printed Frocks the Vogue For All Occasions

When you are tired of the elaborate frock you will find joy in donning one fashioned after the simple lines of the model pictured here. It will serve its wearer with unlimited smartness and utility, if fashioned from one of the attractive printed materials, using a plain color for neck facing, collar, long tie, and trimming section at the sides. The bodice part of the frock is semi-fitted with the lower edge of the skirt rippling into a flare at the knees. Designed with a view to slenderizing the large figure, No. 1359 in sizes 38, 40, 42, 44, 46 and 48 inches bust. Size 40 bust requires 3 1/2 yards figured material, and 3/4 yard plain contrasting. Price 20 cents.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 30 cents the copy.

How To Order Patterns

Address—Wintrop Newspaper Union, 376 McDermott Ave., Wintrop

Pattern No. _____ Size _____

Name _____

Town _____

A sign over a garage in a small western town reads as follows: "Use genuine parts. No substitutes are as good. Ask the man with a wooden leg."

ELECTION DATE ANNOUNCED FOR SEPTEMBER 14

Ottawa—Canada goes to the polls on Tuesday, September 14. In his speech here, Sir Hon. Arthur Meighen definitely announced the date. The campaign will be of just eight weeks' duration.

Premier Meighen opened his Dominion campaign here in the Auditorium. He opened with the charge that in every attempt at initiating important legislation, the King Government had bungled and many times been compelled to reverse its proposals and withdraw its bills. "In the main the prime minister dealt with revelations before the customs committee and with the constitutional issues raised by Rt. Hon. W. L. Mackenzie King.

On the customs department issue, the premier said the government of Mr. King had been so buried under revelations of wrongdoing that it was only natural that Mr. King should choose some other issue. The name of the king's representative had been dragged into the arena, the conduct of His Majesty's representative had been fairly challenged by Mr. King on the floor of parliament, "and from that challenge," the prime minister pursued, "I think Mr. Mackenzie King himself would now like to escape." No action could be more censurable "in the presence of the admitted truth that the representative of His Majesty acted with scrupulous honesty."

To Visit Dominion

American National Editorial Association Will Tour Canada

Victoria, B.C.—Favorable impressions gained by members of the National Editorial Association of the United States on their periodical visit to Canada has been a means of encouraging an influx of settlers into Western Canada. This was the view expressed here by Wallace Odell, past president of the association, who is leading a party of 150 journalists across the Dominion on their return east from the 41st annual convention at Los Angeles.

The party will split at Vancouver, about 50 leaving for a trip to Alaska and the remainder wandering at leisure through the Canadian provinces. In the party are five delegates who visited the Dominion in 1899.

Mission To Britain Fails

B.C. Indians Advised To Take Up Grievance With Canadian Government

Montreal.—The three Indian chiefs from Douglas, B.C., Johnny Chilichit, William Perish and Benl David, who with their interpreter, Mrs. J. C. Williams, went to London representing three tribes in the hope of interviewing King George in connection with their rights to lands in the western province, have returned to Canada.

They report that their attempt met with failure in that the high commissioner in London advised them to return to Canada and take up the matter with the Canadian Government for settlement.

Ontario Candidates

Toronto.—Eighteen candidates have been nominated in Ontario to date to contest the federal elections, including ten Conservatives, six Liberals and two Progressives. Nominations included the names of John L. Stansell, Simcoe, former Conservative member, in Norfolk; and Thos. Rowley, Leamington, Liberal, in Essex South.

Canada Must Be Represented

Melbourne.—If Canada is not represented at the Imperial Conference set for October 5 next, then the conference can accomplish no great results, Premier Stanley Bruce declared in the House of Representatives here.

Liquid Agreement With U. S.

Madrid.—The Spanish cabinet has approved ratification of the agreement with the United States regarding alcoholic liquors.

King To Run In Prince Albert

Accepts Nomination in Northern Riding for Federal Elections

Ottawa.—Right Hon. W. L. Mackenzie King, former prime minister, telegraphed the Liberal Association in Prince Albert, Sask., accepting the nomination for the Liberal candidate in the September election.

At the same time, Mr. King communicated his regrets to the Liberals at North York, who also sought to name him as their standard-bearer.

He pointed out to the latter that he would be compelled to spend most of the time between now and election day on a coast-to-coast campaign and therefore would not be able to devote to North York the time and energy necessary to redeem the "riding," "I have felt," he added, "that to enable me to serve the party's interest in the largest way, I should avail myself of the greater freedom which the acceptance of the nomination by the Liberals of Prince Albert will thus afford."

To Manage Wheat

Pool Elevators

C. M. Hall Will Have Charge of Pool Elevators in Alberta

Calgary.—C. M. Hall, manager of the Alberta Pacific Grain Company, has been appointed general manager of the Alberta Wheat Pool elevators, it is officially announced. He will assume his duties on August 15.

Mr. Hall has been associated with the Alberta Pacific Grain Company for the last eleven years.

Thomas E. Oliver, also of the Alberta Pacific Grain Company, has been appointed assistant to Mr. Hall. It is not generally known that the wheat pool has already purchased 15 elevators in Alberta and have contracted for building fifteen more which it is expected will be ready for business this year.

Harvest In Northern States

Minnesota and Dakotas Commence to Gather in Crops

Minneapolis.—The northwest's 1926 harvest has begun. Harvesting of small grain is under way in several sections of the northwest, and will become general within a week or ten days.

In southern South Dakota and Minnesota, harvesting of wheat is under way, and some oats and barley is being cut. Central South Dakota and Minnesota farmers will start harvest within a week, while other reports said that some harvesting will open in Northern Minnesota and North Dakota within four to eight days.

The first threshing of the season in South Dakota was reported on the Ole Hasehast farm in the Irene district, near Sioux Falls. Threshing will be general within two weeks.

New Goal Is Set

Greater Diversity of Crops Is Needed in the West

Regina, Sask.—A new goal was set up by Aaron Sapro for Saskatchewan farmers and business men to aim at. This was the rounding out of Saskatchewan as an agricultural province by the introduction of greater diversity in crops.

After words of unstinted praise for the Saskatchewan farmers in making incredible strides in its pool organizations, Mr. Sapro, addressing the Canadian Club here, went on to compare Canada in this respect with the United States, very much to the advantage of the former.

Further Home Bank Claims

Toronto.—The 3,500 claims filed by persons who had more than \$500 on deposit in the Home Bank when that institution closed its doors, are to be taken up at a conference in Ottawa, which I. E. Weidon, liquidator, representing the depositors, left here to attend. There is approximately \$700,000 yet to be distributed to Home Bank depositors, and just what percentage of this 1,800 claimants will receive may be announced within the next few days.

To Visit U. S.

Genova.—The Rumanian delegation to the League's Commission on Intellectual Co-operation, announces that Queen Marie plans to visit the United States this fall. Her Majesty probably will sail from a French port about September 15.

BRITISH TRADE IS DEPENDENT ON PREFERENCE

London.—Third reading of the finance bill was given in the House, and Commons after the house had rejected by a vote of 224 to 117 a Laborite motion which would have thrown the bill out.

British trade in recent times has been saved by the amount of British manufactures taken by the dominions and colonies of the empire, Rt. Hon. Sir Robert Horne, former Conservative chancellor of the exchequer, declared in reply to the attack on imperial preference, which is provided for in the bill, by Capt. Wedgwood Benn, Liberal British exports to the various parts of the empire represented forty-four per cent. of her total trade.

"Does anyone imagine that we could keep these markets without the dominions' preference?" he asked.

The result of Australia's increasing British preference was that 53 per cent. of her imports were British manufactures. How did Wedgwood Benn anticipate keeping the dominions' preference if Britain did nothing in return, Mr. Horne continued. He pointed out that there had been propaganda in Canada in favor of reducing or even abolishing the British preferences if Britain did not reciprocate more than she was doing, and he referred to a magazine article by the prime minister of Australia, written last year, declaring that Australia could not be expected to turn a deaf ear to the more favorable offers from other countries if Britain did not reciprocate her preferences to a greater extent.

Poincare To Form Cabinet

Takes Up Task Of Forming Government in France

Paris.—Raymond Poincare, former president of the republic and former premier, will take up the task of organizing a new cabinet to replace that headed by Edouard Herriot, which failed to receive the support of the chamber.

President Doumergue, in deference to the general desire of parliament, the press and public, decided that the time was ripe for a national ministry representing all, or as many parties as possible to work for the rehabilitation of the finances of France. He asked M. Poincare to organize such a ministry, and this Poincare agreed to do.

May Sell Interest

Dublin.—Minister of Finance Blythe announced in the Dail that the Irish Free State Government proposed to sell the government's interest in the National Land Bank to the Bank of Ireland for £203,000.

Students Tour in China and Japan

Indicating the great attraction which "the Immortal East" exercises on the Occident, here are a group of happy student boys who are determined to see for themselves what everyone at some time or other talks about and discusses. They are photographed on board the Canadian Pacific liner Empress of Russia and sailed recently on the ship for the Orient from Vancouver for a six weeks' tour of China and Japan under the auspices of the Arts and Crafts Guild. In that time they will see many of the famous shrines and cities of the two countries and will come back with a wealth of new ideas reinforced by actual experience of the two greatest aspects of the East. They will return to Canada on the Empress of Russia arriving at Vancouver, August 9.

Laboret Is Reproved

Jack Jones Is Ejected From the British House

London.—Jack Jones, irresponsible Laborite M.P., figured in another scene in the commons and had to withdraw from the house on the speaker's orders.

During the question period some members grumbled because the minister of mines, Mr. Col. G. R. Lane-Fox, seems to be present, and Jones said: "It is not the real reason that the minister of mines is incapable of answering questions."

He refused to withdraw the remark, which the speaker declared was grossly improper, and was ordered from the house. Two weeks ago Jones caused a stir when he called Lady Astor a liar. Reproved by the chair he substituted Churchill's phrase "terminological inexactitude."

Alberta Harvest Labor

Province Will Require Thirteen Thousand Laborers This Season

Edmonton.—Thirteen thousand harvest laborers for Alberta this year is the estimate of the province's requirements as reported by Hon. Alex. Ross, minister of labor.

This is an increase of about 5,000 over last year's figures, which is accounted for in part by the better crop prospects and in part also by the fact that there will not be as much labor obtainable locally.

It is not expected more than 4,000 men will be available within the province itself and more than three times that number will have to be brought in from the outside.

More Self Discipline

Ramsay MacDonald Says Youth Requires More Discipline Than Ever

London.—Harsh self discipline was urged upon the youth of today by former Premier J. Ramsay MacDonald, addressing a huge throng at a session of the World's Christian Endeavor convention at Crystal Palace. Because of the misery the world was suffering from the ravages of a few years ago, he said, youth required discipline severe, more drastic and more hardening in spiritual things than had been called for by any generation for a long period. The speech was roundly applauded.

Lord Willingdon Congratulated

London.—Viscount and Lady Willingdon were among a distinguished gathering at a luncheon tendered by the British Indian Empire and the Marquis of Reading, former viceroy of India, took the occasion to toast the man who had been appointed to succeed Lord Byng as governor-general of Canada. The luncheon was held under the chairmanship of the Duke of Connaught, who has himself served as governor-general to Canada.

PROGRESSIVE AND LIBERAL FUSION IN MANITOBA

Winnipeg.—Liberal and Progressive fusion arrangements in Manitoba, thus far consummated means unquestionably the loss of four Conservative seats. Last fall Selkirk was won by the Conservatives polling 3,598 votes, while the Progressives and Liberals combined polled 5,853. Now but one candidate will confront the Conservatives there, making that seat certain for King. In Marquette, an overwhelming Progressive seat, where Hon. Thos. Opper won twice, by 7,000 majority, the Conservatives cast last fall 3,441 and won, though the Progressives and Liberal candidates had 4,824. Now with fusion established the Conservatives cannot hope to win that seat.

The same story is true of Neepawa where the Conservatives elected their man by a total vote of 3,647 while the Progressive and Liberal candidates polled together 5,228.

Fusion has also been completed in Dauphin, another seat won by the Conservatives last year. It is a three-sided contest by a small margin. At a meeting of the executive, where Hon. Chas. Dunning went into the fusion plans with the Manitoba organization, it was pointed out that fusion candidates would probably also appear in all other rural seats of Manitoba. If that is completed it means four of the seven Conservatives who won seats last fall will be hopelessly outvoted in September and require other seats.

Hon. Robert Rogers, former member for South Winnipeg, will again contest the seat at the coming federal elections. Mr. Rogers, who was the chief speaker at a meeting of the executive of the South Winnipeg Conservative Association, definitely announced that he would be in the field again, thus putting a quietus on rumors which had held that he would be elevated to the senate or offered the lieutenant-governorship of Manitoba.

Premier Meighen will spend several days in Manitoba on his western campaign tour, which will open on August 7; it was announced here. His first Manitoba stop will probably be in the constituency of Marquette.

The prime minister will spend four days in the province on his way west and three days on his return. His meetings will include one in Winnipeg.

Government Plane Crashes

Three Are Injured In Mishap to Ontario Forestry Plane

Sudbury, Ont.—One of the Ontario Government forestry planes in charge of Aviator Smith, crashed into the waters of Lake Rauany near the air base here. There were five persons in the plane, another aviator being with Smith, and three civilians, Alex. McLeod, well-known Ford dealer of Sudbury, his daughter Myrtle, and Mrs. Clements, of Chicago, who is a summer visitor at the McLeod home. Mr. McLeod is severely injured and may not recover. Both ladies suffered severe bruises and cuts, but their condition is not dangerous. All three are in St. Joseph's hospital. The two aviators escaped unharmed.

Rejects Beer By the Glass

New Westminster, B.C.—By a majority of approximately 365, the voters of New Westminster rejected a proposal to allow the opening here of establishments for dispensing beer by the glass, such as those in Vancouver and other centres in British Columbia which voted in their favor in the first plebiscite held last year. At that time the proposal was voted down here by a majority of about 800, and the second plebiscite was held following the filing with the provincial authorities of a petition bearing the names of the required percentage of voters.

Eleven Are Drowned

Lindsay, Ont.—Eleven young men and boys, ranging in age from 16 to 23 years, drowned in the waters of Bass Lake, 85 miles northeast of Toronto, when the war canoe in which they had set out to replenish the supplies for the summer camp was capsized. Four members of the party reached land after clinging to the upturned craft for more than five hours.

Treasure Island is Mecca for Children

1. Complete and exact in every detail is this small engine, representing the largest type of engine used in the Rockies in Canada. This small engine pulls 18 people around the "island" at one trip. 2. A composite picture of a "Treasure Island" scene showing a party of youngsters leaving Quebec on the Canadian Pacific "Train and passing through the Connaught tunnel situated in the Canadian Rockies. At top of cliff is a miniature of the Chateau Frontenac.

Treasure Island, the outstanding amusement feature of the British Empire Exhibition at Wembley—with its bold but nice pirates, Long John Silver and Captain Hook, and its many other famous characters from storyland, Peter Pan, Wendy, Alice, the Duchess, the Mad Hatter, Cinderella, Mother Goose and Robin Hood, Cruise, has proved to be the greatest entertainment attraction at the Sequi-Centennial International Exposition at Philadelphia.
It is a much bigger and more wonderful "Treasure Island" than the one which delighted thousands at Wembley last year. It has six acres of land, surrounded by a natural lagoon. The entire lay-out of the island in Philadelphia was designed and built by Maxwell Ayrton, architect of the Wembley exhibition grounds. Drake's ship the "Golden Hind," Noah's Ark and its animals, two by two, and pirate and smugglers' caves will be a few of the features seen.
But quite the most fascinating experience of the visitor to Treasure Island is the trip across Canada on the miniature Canadian Pacific Railway's "Imperial Limited" train which is pulled through a replica of the Canadian Pacific Rockies by a small puffing engine only four feet long, but strong enough to pull 30 people. The engine driver is J. Terrence Holder, the twenty-one year-old son of one of England's wealthiest families who prefers this job to an Oxford career.
One gets on the train at the Palais Station, Quebec, just below the magnificent Chateau Frontenac, and passes through Quebec and Ontario provinces and enters the prairies in less than no time. When Banff is reached the train stops to allow passengers to see the Banff Springs Hotel and the beautiful Bow Valley. Westward it speeds through the Canadian Pacific Rockies, soon 900 feet long, the tallest towering 74 feet high and built of sheet iron and plaster, and dashes into Connaught tunnel; thence on to the Coast, where one sees Vancouver Harbour, the Straits of Georgia and picturesque Victoria. More than half a million people rode on the little Canadian Pacific Railway at Wembley last year, and among its distinguished passengers were the King and Queen and the Duke and Duchess of York.

1926 AUTOMOBILE
ROAD MAP HERE.

All Main, Secondary and Inter-
mediate Trails Plainly Shown
The 1926 edition of the
Automobile Road Map of Al-
berta, described by James W.
Davidson, president of the Alberta
Good Roads Ass'n, as the most
authentic and accurate yet made,
is just off the press. It is published
by the Western Canada Road
Route Service Ltd., of Calgary.
A copy of this map has been
received by Stony Plain. Sun and
a perusal of it allows the great care
and infinite work that was neces-
sary in its preparation.
It is announced that this map
will be on sale in most of the sta-
tionery stores and garages in Al-
berta or may be secured direct
from the publishers.
This big map sells for 75c. It is
valuable to anyone starting out on
a motor trip and will be a stimu-
lus to tourist traffic in the province.

PHILIP TRAPP

Here and There

The Right Honorable Viscount
Kimm Matsudaira, attaché to His
Imperial Highness Prince Chichibu,
second son of the Emperor of Japan,
crossed through Canada and left
Vancouver for Japan where he will
spend his vacation with his family.
The Viscount will return through
Canada to England in the fall.

Fifty-five young fellows who have
been prepared for Canadian farm-
ing at the British Ministry of
Labor's centre at Brandon, England,
arrived in Canada recently. In the
Canadian Pacific S.S. "Empress of
France." They came to this coun-
try, accompanied by Lt.-Col. G. A.
Brinton, under the auspices of the
Canadian Government and the C.P.R.

Arrangements have been made to
hotel facilities for supplying both
fuel and diesel oil to ocean liners
which will dock at the monster new
double decker pier "B" and "C" of
the Canadian Pacific Railway now
nearing completion in Vancouver
harbour. It was announced that eight
marine elevators would be installed
on the pier, the elevators being
known as Barlow type on the Pa-
cific coast.

282 Certificates were awarded to
successful Sleeping and Dining Car
employees of the Canadian Pacific
Railway for passing their examina-
tions in the First Aid Instruction
classes. The extent to which First
Aid instruction among C.P.R. teams
is growing is indicated by the fact
that the McAdam N.E. team was
recently awarded the Wallace Nes-
bitt Trophy, in which competition
Michigan and Maine also sent con-
testants.

Definite indications of the largest
building year Canada has had in
more than a decade are now shown
by the record of the first six months
of this year. The very large and
unusual total of \$194,543,600 worth
of new construction for the first
half of the current year, and con-
templated new work to the value of
\$304,598,500 forecasts great ac-
tivity for the remaining months.
During June contracts awarded
totalled \$54,185,400, an increase over
June, 1925, of 65 per cent.

Net profits of the Canadian Pa-
cific Railway for the month of May
at \$2,448,874, compare with \$308,
918 in the corresponding month of
last year, an increase of \$1,539,952,
being the best showing in this re-
spect since 1921. Gross earnings for
the month are shown at \$15,492,768,
an increase of over three millions,
when compared with May of last
year, and the highest gross shown
by the road for any May since 1920.
Working expenses for the month
under review are shown higher by
1 1/2 millions.

Two officials whose tenure of
office was practically contemporary
with the existence of the Canadian
Pacific Railway, have recently re-
tired from that company. They are
C. J. Flanagan, auditor of freight
and telegraph receipts, and J. H.
Shearing, auditor of passenger re-
ceipts, both were presented with
gold watches suitably engraved,
while members of their staffs gave
to Mr. Flanagan a travelling bag,
and to Mr. Shearing a malacca cane
with a gold band engraved with an
expression of the esteem of his staff.

Mayor Thomas Foster, of Toronto,
and Mayor Medrie Martin, of Mont-
real, took advantage of the newly
inaugurated Canadian Pacific trains
"The Rideau" and "The York" be-
tween the respective cities to ex-
change letters of greeting. When
"The Rideau" pulled out of the sta-
tion at Toronto on its initial run,
the engineer carried a letter from Mayor
Foster conveying his greetings to
Mayor Martin, who replied the fol-
lowing day in the same manner, but
by "The York." Both trains make
the run between Toronto and Mont-
real in eight hours.

Strange, Romantic Love Adventures of the Glapper you know!

Anna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

Kenilworth—he was of the sort she was most accustomed to, only, of course, he was the superkind that would press to his lips whatever ribbons might come to his finger tips at night, and blow them to the winds in the morning without regard for silk or cotton.

She would always have to be on her guard against Brandon. If Kenilworth carried out the threat which lurked in his calculating eyes as he let them sweep over her, she'd checkmate him, easily. Considering all persons of the other sex as hunters, Joanna felt no wondering what would be the tactics of such a man as Kenilworth who, not being by any means young, must have had diverse experiences. She was brought sharply out of this reflection by the young woman with the black hair, whom Brandon had called Yvonne.

If Kenilworth carried out the threat which lurked in his calculating eyes, she'd checkmate him.

"Don't you all know it's horrid, to have to pretend," Yvonne said, suddenly, allowing her fingers to flutter over Joanna's wrist. "That we aren't bubbling over with excitement about Miss Manners' amazing news! For one, must tell her how thrilling I think it must be."

Joanna gave her a grateful glance. "There doesn't seem to be anything else I can think about," she admitted. "If I only knew 'why' and from whom!"

"Let's see," Kenilworth leaned aloof, Joanna stands for some generous

ally of the gods, doesn't it? Something like a 'gracious gift,' I remember my mythology aright. Gods, like glitters, mustn't be looked in the mouth. Not even by the loveliest of their favorites. My advice to Miss Manners is to never worry over the source of her dramatic good fortune, but proceed to him as many pipers to make music for her as she wants to pay."

Yvonne laughed a sly little laugh that Joanna eyed. "Add you, Roddy, are dying to offer your self as one of the original pipers," she accused. To Joanna she added brightly:

"He's a beast of prey, this Roddy. He has the same accessories in every port that a sailor is supposed to have put away for his shore leaves. You must never take him seriously. Especially when he makes furious love

to you." Kenilworth raised a protesting hand, but Yvonne continued, nodding at him.

"Oh, you'll be making love to her before the evening's out. A college boy, who was a scion of a family, or something like that. Yvonne Coutant engaged to another millionaire's son, and then to an Egyptian prince. Yvonne Coutant at Monte Carlo, shocking English duchesses with gowns that wouldn't be allowed even in the most exclusive of the most described them just that way. And in the most daring of beach costumes at Deauville. Then married to the famous author and promptly divorced in Paris. Joanna knew her Sunday paper history as girls of another day knew their cook books. The Paris buyer for the store had sent over a dress, one time, which he said was an exact copy of the model worn by Yvonne Coutant at the Longchamps races. The store designers had added four inches to the back and front and put on shoulder straps, and made it a best selling number in the four hundred dollar class. And she, Joanna, yesterday morning 'Miss Twenty-seven,' had talked with her maid and held her own with her."

"Did you really mean that her husband actually is here, tonight?" she asked her companion. "One of them. If I spot him I'll give you a nudge. He's with a new flame. Yvonne was over to them, a while ago, to see what she's like. Says she's the kind that has golden weddings." (To be continued)

You have to have a pull to get along in this world. Ask any fellow who has tried to make the variety crew.

Brandon came to Joanna's rescue. "She'll survive, even Roddy, I'm sure," he commented. "She has a most disconcerting way of putting the proper people in the right places."

Over the coffee they talked of the money, of Graydon, and Eggesford and quite understood Joanna's inability to make plans. As often as she could, Joanna watched Yvonne, and studied her. She was of the kind that seldom comes to the silk counter of a department store. Joanna decided she was a bright example of the butterfly who hovers gaily over the most desirable garden, in that world to which "Miss Twenty-seven of the silks" had stood no closer than the farthest edge until tonight. And she thought that Yvonne was deliberately reaching out to her, as if to bring her within some common bond. Immediately, though, she considered if this feeling were not born of her own self-consciousness.

She concluded she would have to learn, soon, to take these new people, who lived among 'the hills' and knew the real ways she had always imitated, as she found them. With this resolve she smiled brightly at

Kenilworth. He acknowledged it by putting down his cocktail glass. "I don't know whether you mean it or not," he said, "but you are saying to me that with so much dancing to be done before they turn us out you'd like to be getting busy. May I consider that I'm right?"

When they were on the floor Joanna asked him to repeat Yvonne's name. "I didn't hear, or I didn't understand it," she explained.

"Yvonne will do, quite satisfactorily," Kenilworth assured her. "Whoever knows her knows her well enough to forget the rest of it. If he can't. Anyhow it's Coutant—the Yvonne Coutant you read about. There's a husband here, tonight, off in a corner some place. But I don't know which one it is, the first or the last. No use asking her. She's probably forgotten."

Yvonne Coutant! Now Joanna knew why her face had fascinated her; why it had seemed so vaguely familiar! Each marriage a sensation, and each divorce greater one. She had seen her pictured regularly in the Sunday newspapers—that part of them which she really looked at, the illustrated pages. She remembered Yvonne Coutant divorcing a college boy she'd run away with. A college boy, who was a scion of a family, or something like that. Yvonne Coutant engaged to another millionaire's son, and then to an Egyptian prince. Yvonne Coutant at Monte Carlo, shocking English duchesses with gowns that wouldn't be allowed even in the most exclusive of the most described them just that way. And in the most daring of beach costumes at Deauville. Then married to the famous author and promptly divorced in Paris. ECZEMA IN FORM OF RASH

Lasted About a Year. Healed by Cuticura.

"My scalp started to get red and itchy and had a burning feeling. Later eczema broke out in the form of a rash and spread to my face and body. It was itchy all the time, and my woolen clothing made it worse. My face was disfigured, and my hair fell out and got dry. The trouble lasted about a year."

"I began using Cuticura Soap and Ointment and after using one cake of Cuticura Soap and one box of Cuticura Ointment I was healed." (Signed) Miss Alice Bickell, R. 3, Woodville, Ont.

Do not use Cuticura Soap, Ointment and Talcum behind to prevent skin troubles.

Sample box free by mail. Address: Cuticura Dept., P.O. Box 100, Portland, Me. Send for free Cuticura Soap and Ointment.

British Poise

Temperament, Stability and True Sportsmanship of the British

The conduct, temper and general behavior of the British people during the great strike have called forth merited words of praise. To no nation was the unmitigated rebuke to communism more pleasing than to United States; where the foreign element is always threatening and where the real temperament, stability and true sportsmanship of the genuine Britisher is, perhaps, least understood.

The whole world is indebted to England for a system of government that works wherever it is applied, for a judicial system and code of laws which are yet unexcelled, for a spirit of true sportsmanship that allows the strongest adversary a fair chance, and now the Mother Land has with poise and dignity given such a rebuke to communism as to win the admiration of the world—Farmer's Advocate.

A Modern Cinderella

London Saturday is Society Debutants at the Royal Court.

A Cinderella in real life has been found by London society.

Miss Dorothy Knaggs, daughter of Lady Knaggs, was presented as a society debutant at the most recent brilliant Royal Court at Buckingham Palace. She was sponsored by Lady Cadham, her aunt and wife of the chairman of the Great Anglo-Persian Oil Company.

It has now been discovered that at 8 o'clock on the morning after the court, Miss Dorothy Knaggs, society, presented herself for duty at a big department store. None of her fellow workers knew anything about the presentation.

The Friend of All Sufferers—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and relieves by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

Little Helps For This Week

And thou shalt be secure, because there is hope—Job ix, 13.

And, as in sparkling majesty a star glides the bright summit of some gloom, Brightly the half-veiled face of heaven star.

So when dark thoughts my bodied spirit shroud Sweet Hark celestial influence round meathed.

Waving thy silver plumes o'er my head.

Hope is the cordial of the human heart.

Hope never hurt anyone, never yet interfered with duty; nay, always strengthens to the performance of duty, gives courage, and clears the judgment. Saint Paul says, "We are saved by hope."

—George MacDonald.

Fresh Supplies in Demand—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Military Guard For Bank

Troops On Duty At The Bank of England Every Night

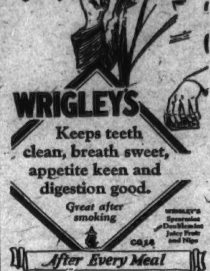

The custom of having a military guard at the Bank of England dates back to the time of the Lord Gordon riots, when the bank was threatened by the mob, and only relieved by the soldiers. Ever since then a guard of one officer, two sergeants, two corporals, a drummer, 25 privates has been on duty there every night, coming off at six or seven in the morning, according to the season of the year. By custom, the guard is the guest of the bank; the guard in particular being given a rather ceremonial dinner, which he has the privilege of inviting two friends.

Jameson certainly had a big bump on his head when he came to the office yesterday.

"Ah, he told me that the girl he married was a brick."

Baldwin Deluged With Pipes

Tobacco pipes, new and old, cheap and expensive, of every conceivable design and variety, have been showered upon Stanley Baldwin, the prime minister, in such numbers that it has become a problem at No. 10 Downing Street as to what is to be done with them.

SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera, infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally the mother can be sure to prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

The magic, a Mexican tree, supplies from its bark a thread three times as strong as ordinary cotton.

Minard's Liniment for Sore Feet

As Much As He Knew

After the household has been completely disorganized for three weeks, the society reporter refers to it as a "quiet house wedding."—Detroit News.

RUN-DOWN AFTER BIRTH OF BABY

Ottawa Woman Made Strong by Taking Lydia E. Pinkham's Vegetable Compound

Ottawa, Ontario.—"I was terribly run-down after the birth of my third baby. I had awful bearing-down pains and was afraid I had serious trouble. I was tired all the time and had no appetite. My sister-in-law is taking Lydia E. Pinkham's Vegetable Compound and cannot praise it too highly and asked me to try it. I have had splendid results and feel fine all the time now. Any one who needs thorough pick-me-up soon learns from me what to take."—Mrs. RENE PAVONI, 320 Cumberland Street, Ottawa, Ontario.

Terrible Backache

Hamilton, Ont.—"After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all were the pains in my sides when I moved about. I had to sit or lie down for a while afterwards. I could keep my house in order, but many things had to be done at the time, because of my ailments. I was told by a neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would build me up. I was relieved before I had taken the first one and bought and have not had any trouble like it since."—Mrs. J. MANKIN, 115 Ferguson Avenue South, Hamilton, Ontario.

Many years of continuous wear and tear will make the finest piece of mechanism unfit for service. If your old separator is passing on even a few cents' worth of butter fat to the calves at every milking, that machine is no longer 'fit for service.' It may be eating its head off and you don't know it.

Stony Plain and District.

Mr E. Golz was up from
Wetaskiwin over the week
end.

Paul Meredith made five
return trips to the Edmonton
Stockyards with his truck on
Friday last, each time with a
load of hogs. Hog buyers
have found it rather incon-
venient to ship by the rail-
way, as usually the train from
the west comes thru too early
in the afternoon. Merediths
have found the Chevrolet
truck system has simplified
the transportation problem.

W. J. Stevens, Commission-
under the 'Noxious Weeds
Act, is expected to pay Stony
Plain district a visit this
week. He is very anxious to
see a determined effort made
to eradicate, not only the sow
thistle, but all noxious weeds
in the district. All are asked
to keep a watchful eye on
their premises and vacant
property near their home and
to clean out all traces of weeds
before they had a chance to
spread.

Hog raisers would be well
advised to use every precau-
tion during the hot weather
when marketing their hogs.
This was proven last Thurs-
day, when two local farmers
each lost a hog while being
brought to town for sale. One
of the animals weighed round
600 pounds, and died two
miles out after enduring a 15-
mile trip. This meant a loss
to the man of over \$50. The
other animal weighed around
225 pounds and would have
brought top price, but is said
to have died from being over-
fed before the trip began.

Mr. Wuerz, secretary of
Golden Spike S. D., reports
over 80 applications received
for the position as a teacher
at that school.

Archbishop O'Leary will
hold Confirmation services at
the R. C. Chapel at Carvel on
Sunday afternoon next.

A well-attended dance was
held Friday evening at the
new Cottage Lake school-
house. Kotscherofskys sup-
plied the music.

On Sunday July 25th, at
Mewassin, to the wife of Mr.
Frank Johnson, a son.

The ball game at Evansburg
on Sunday proved to be a
very interesting event. Evans-
burgers were playing Pigeon's
team from Duffield, and
quite a large crowd of specta-
tors were present to witness
the event. Score: Evansburg
8, Duffield 15. Battery for
Duffield, Hellum & Cormier
p. Brass c. The feature of the
game was Harry Lansman's
2 home runs a 2 three-bag-
gers.

On Thursday last, while
workmen under Contractor
Cherimeter were engaged on
the new building at Golden
Spike for the Lutheran con-
gregation the roof rafters
caved in, carrying the work-
men to the main deck, injur-
ing two of the crew rather
severely. The injured men
were rushed to an Edmonton
hospital, where they now are
on their way to recovery.
All the injured men lived
in the city. Work on the
roof will shortly be resumed.

Barn Dance, Saturday Eve-
ning July 31, at Henry Lutz's new
barn, at Carvel. Everybody
welcome.

GOODRICH PUTS

TIRE PRICES BACK TO LEVEL OF 1924.

A generous reduction in tire
prices just announced by Can-
adian Goodrich Company Lim-
ited, has restored the price
levels of two years ago, ac-
cording to Oppertshausser &
Sons, the local Goodrich deal-
ers.

They say: "This is much
more than a cut thrown out
to attract a few backward
tire buyers. Comparison of
the new price list with prices
on the great majority of sizes
and types in 1924 shows how
completely any so-called 'in-
flation' has been squeezed out
of tire prices. In a majority
of cases, the new prices match
the prices of two years ago."

Mr. G. Oppertshausser also
points out that the new prices,
figured in percentages are 25
per cent or more below the
peak prices of last year.

Spruce Grove Notes.

Miss Louise Brox, the pop-
ular young saleslady at the
McLeod Mercantile, is on
vacation this week, and is visit-
ing with friends in the City.

The secretary of the local
school board has been swamp-
ed lately with replies from an
advt. for a teacher for the
primary room. About 175 re-
plies have been received so
far, and more are coming in.
Miss Beckman of Camrose
has secured the appointment.

Mrs. H. Loeblich was taken
to an Edmonton hospital last
week, for treatment.

Archbishop O'Leary will
hold confirmation services in
St. Joseph's church Sunday
next; Aug. 1st, in connection
with the regular morning ser-
vice. There will be about 30
young people who will be con-
firmed.

Mr. Wuerz, the worthy
blacksmith from Golden Spike,
is preparing to open a grain
crushing mill at the Grove
so soon as he secures a suit-
able site.

Mr. Jac Brox celebrated on
Saturday last the 50th anni-
versary of his natal day, and
took a trip to the City.

A birthday dance was given
Friday night at the Splend
ranch, Winterburn.

There was a baseball game
on Friday afternoon last be-
tween the Grove and Winter-
burn, on the latter's grounds.
Score: Winterburn 21, Grov-
ers 12.

The dance Friday night at
the "Jasper Highway Amuse-
ment Hall and Tea Room"
drew a good crowd. Martins
supplied the music. A feature
of the dance was a large re-
presentation present from the
Railbirds' Union, who broke
down the railing on the south
side in their effort to get
something for nothing.

The parishioners of Rev.
Father O'Halloran are arrang-
ing to hold a house-warming
in the new parish house when
the latter is completed.

On Thursday July 15, at
St. Matthew Lutheran church,
Spruce Grove, by the Rev. G.
Poetzsch, Miss Katie Lienau
(of Spruce Grove) was united
in marriage to Mr. Fred Mil-
ler (of Winterburn). The
bridesmaid was Miss Emma
Lienau, sister to the bride;
the best man, Mr. Andrew
Miller.

Election Tuesday, Sept. 13.

Premier Meighan announ-
ced last week that the provin-
cial general elections will be
held Tuesday, Sept. 14. Nom-
inations Tuesday, Sept. 7.

The Liberal nominating con-
vention for West Edmonton
is being held in the City to-
night. Delegates from Gran-
tham, G. G. Campbell and John
O'Gorman; Spruce Grove, J.
Brox and Jac Miller; Comet,
Murd McKinlay; Duffield, F.
J. Frauncey & E. H. Pidgeon;
Winterburn, W. E. Bristow.

The Conservative nominat-
ing convention for W. Edmon-
ton was held last week, when
Col. Jamieson was chosen.
An effort was made to induce
Mr. Lundy, our worthy fel-
low townsman and a leading
Conservative statesman, to en-
ter the lists against Mr. Chas.
Stewart, as it was thought
he could make a better show-
ing than Mr. Douglas did last
October, but Mr. Lundy de-
clined to enter the Federal
political arena.

Sells-Floto Circus 1926

More than 400 arena stars
are required to round out the
program of the Sells Floto
Circus, which is billed to tip
parade in Edmonton on Monday,
August 24. This big show, long
considered as the "climax" of the
circus world, will doubtless at-
tract hundreds from this place.

An added attraction this year is
Buffalo Bill's Wild West Show,
with a large number of full blooded
Sioux Indians.

Noted this year as among the
performers is the famous "Poodles"
Hammford and his comedy riders.
Hammford is known far and wide
as the greatest circus performer in
his special line in the world.
Others whose fame is widespread
are the Flying Wards, the Sells-
Floto clown army, the three herds
of performing elephants, included
in which are the only elephants
who give an exhibition of the new
famous "Charleston," and said to
be perfectly trained in this new
style.

There are also the 60 Liberty
horses, half a hundred performing
lions, tigers, leopards, polar bears
and others, the programs given by
each and by the mixed groups be-
ing thrilling in the extreme.

Practically two hours is given
over to the performance in the
main tent, and the 3 huge steel
arena and stages are filled with
action every minute of the 120.
The opening spectacle is a pageant
of color and beauty and serves to
introduce the 1000 people to the
audience.

Sells Floto is the exception among
circuses, being absolutely
clean, and being at the same time
exclusively a circus that has re-
tained the features that make per-
formances of this kind enjoyable
to everyone who attends. Two
performances will be given, the
first at 2 and the second at 8 p.m.
The opening spectacle is a pageant
of color and beauty and serves to
introduce the 1000 people to the
audience.

Situation Wanted.

A farmer who has lost
his crop by drought in the
South is open for employ-
ment with a good farmer in
